"I am happy to say that pretty much from the start Marieve Herington manages to do that. Her Honoka may not quite have the same cuteness (a very hard to pin-down quality and a bit less important in English than in the original Japanese, where it seems to make or break the career of many seiyuu—also, it's very much a case of mileage variance, so take that comment for what it is and move on) as the original, but the drive, the energy, the relentless (there's that word again) optimism of Honoka all shine through. Honoka's highs and lows get presented here in their full gusto without any holding back. That's exactly how Honoka should be. Honoka at times is not so much a character as a force of nature, bulldozing a path through obstacles and carrying others along with her. That same feeling of forward dynamic movement is present here in Ms. Herington's Honoka."
